## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. Claims 1-2, 4-6, 13, 15, 17, and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is vague. While applicants have amended the claim to recite the molecule being located with plasmon fields of the nanoparticles, the relationship of the molecule to the nanoparticles is still not clear. Consequently the interaction of the analyte with the composition (molecule and nanoparticles) is also not clear. To which component of the composition is the analyte interacting with? And how is the analyte detected? Claim 1 has been amended to recite monitoring the spectral absorption or emissions from the molecule but is not clear as to how the molecule is effected by the analyte. Essentially, the claim is not clear what this "molecule" is, how the "molecule" is related to the nanoparticles, and to what does the analyte interact with to be detected.

Also, the specification (page 5) suggests that the molecule is specifically a fluorophore. If that is true, then the claim should be amended accordingly. Also, page 5 of the specification indicates that the fluorophore cannot directly contact the nanoparticles because doing so will quench the fluorophore. If the molecule is a fluorophore, its relationship to the nanoparticles needs to be clearly recited as defined in the specification.

***Conclusion***

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
